

Pb Batteries

Always use a compatible charger.

Over or undercharging reduces capacity.

Do not over discharge.

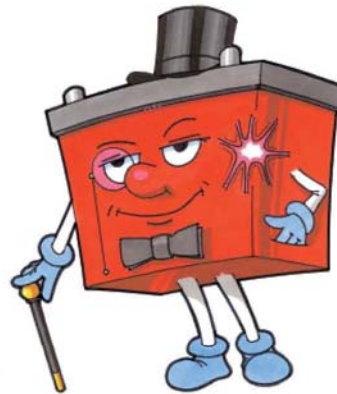

Keep vent caps and protective covers firmly in place at all times.

Use approved water only (Pure / De-ionised).

Check electrolyte levels regularly. **DO NOT OVERFILL.**

Keep in tip-top condition.

For optimum performance, keep all connections secure.

SAFETY: Always wear protective clothing when handling batteries.

BATTERIES PRODUCE EXPLOSIVE GASES. Never smoke, allow naked flames or sparks near your battery.

Keep metal objects away from your battery.

For more details of safe operating practice, see BS 6287.

For further information refer to the Battery Maintenance Manual or consult Pb Batteries
